Residency

ALBERT EINSTEIN MEDICAL CENTER, PHILADELPHIA PA
5501 Old York Road, Philadelphia PA, 19141

- Director: Larry Menacker, DPM, FACFAS
- Three year foot and ankle surgical residency with rearfoot certification (PM&S-36)

Training/Duties

- Training in forefoot, rearfoot, ankle, and reconstructive surgery of the foot and ankle
 - Responsibilities include examination, diagnosing, patient education, evaluating radiographs, conservative and surgical treatment, along with postoperative patient management
- Clinic training
 - Hands on clinic where patients have a variety of ailments. Commonly treat wounds, diabetic infections, biomechanical issues, cast orthotics, prescribe and dispense bracing, perform therapeutic injections, and evaluate X-rays and lab results.
- Wound Care Center and Limb Salvage
 - Evaluation and treatment of ulcers, infections, burns, venous stasis wounds and blisters through a variety of modalities including debridement, wound grafts, hyperbaric oxygen therapy and surgical intervention
- Chief Resident
 - My responsibility to organize and work out a schedule to ensure the residents are able to provide coverage for our attending's clinics, surgical cases and delegate consults.
